

Tomorrow Kaleen Primary School will take part once again in 'Clean up Australia Day'.

Students in year groups will don gloves to lend a hand in cleaning up our school grounds which are a registered site for the 'Clean Up Australia' cause taking place in the community Saturday 2nd March.

As per the previous year, we will again be holding a competition among the Junior and the Senior school classes to see which two classes can bring in the most labelled reusable gardening gloves from home to lessen our need to use disposable plastic gloves. There will be two prizes available to recognise the winning two class' efforts.

We look forward to the whole school getting behind this great community cause on the day while making a positive difference to the playground!

Thank you!

The Sustainability Team
